HOW IT WORKS

We pinpoint the most important ‘must-see’ masterpieces in each selected venue on a unique 3D floor-by-floor map. These exhibits are identified by specific icons to make it easy for you to locate them once inside the building. High-quality audio recordings explain each work of art, in your choice of six languages. You get fascinating stories from local experts that are rich in history and anecdotes, and at the same time avoid long lines of people waiting to collect or return physical audio-guides.
