NEW APPLICATION TECHNOLOGY

VoxOverWiFi (VoW) is a cutting edge tool revolutionising the congress and professional events sector by eliminating the necessity for infrastructure within the venue location.

Speakers, interpreters and delegates download the app on their own smartphones, converting them into transmitters & receivers. This unique system allows the participants to listen clearly to a live main stage event.

ORGANISER BENEFITS

- Possibility of multiple simultaneous events.
- Easily record event activity.
- Freely receive questions from the audience.
- No risk of interference.
- Effortlessly create surveys/polls during the event.
- No handling or loss of equipment.
- Easy on-site setup.
- No need to ask delegates for equipment deposits.

DELEGATE BENEFITS

- No need to leave a personal document as a deposit.
- Questions to the speaker can be made anonymously.
- No waiting time for equipment.
- Participate in surveys through the app.
- All event information can be stored in the app (such as calendar, event programme and documentation etc).

**We ensure superior audio performance
for your event. Always.**
